

UNLOCK THE POTENTIAL

USING AI

AI Essentials Training: Elevate Your Skills. Join our comprehensive AI Essentials course to gain a fundamental understanding of artificial intelligence. Learn key concepts, applications, and practical insights to harness the power of AI in your field.

TRAINING OVERVIEW

Welcome to the AI One Day Conference, a dynamic and immersive event designed to provide you with a comprehensive understanding of the rapidly evolving world of Artificial Intelligence (AI) this conference brings together industry leaders, experts, and enthusiasts to explore the transformative potential of AI. Our agenda is carefully crafted to offer a deep dive into the various facets of AI, from its historical roots and real-world applications to the cutting-edge technologies and ethical considerations that shape its future.

Throughout the conference, you'll have the opportunity to witness AI in action across diverse industries, discovering how it is revolutionizing sectors such as healthcare, finance, manufacturing, and marketing. Our expert speakers will guide you through the complexities of ethical AI, ensuring you leave with a clear understanding of how to navigate this critical aspect of AI implementation.

Whether you're an IT professional, data scientist, business leader, researcher, or policymaker, this conference promises to be a gateway to a deeper understanding of AI and its role in shaping the future. Join us for a day of exploration, inspiration, and collaboration at the AI One Day Conference.

Key Take away

The Evolution of AI

A comprehensive overview of the history and development of AI, from its inception to its current state.

A talk on the importance of cybersecurity in today's digital world and how AI can help enhance it.

Cyber Security in a Digital Era

AI solutions on Azure

A hands-on session on setting up an environment for developing AI solutions using Azure.

A showcase of the latest tools and enterprise solutions available for implementing AI in businesses.

Modern Tools and Enterprise Solutions

Securing AI Services

An exploration of the importance of security in AI applications and how to implement it effectively, as a dialogue on the ethical implications of AI, including issues like privacy, bias, and job displacement.

VALUES

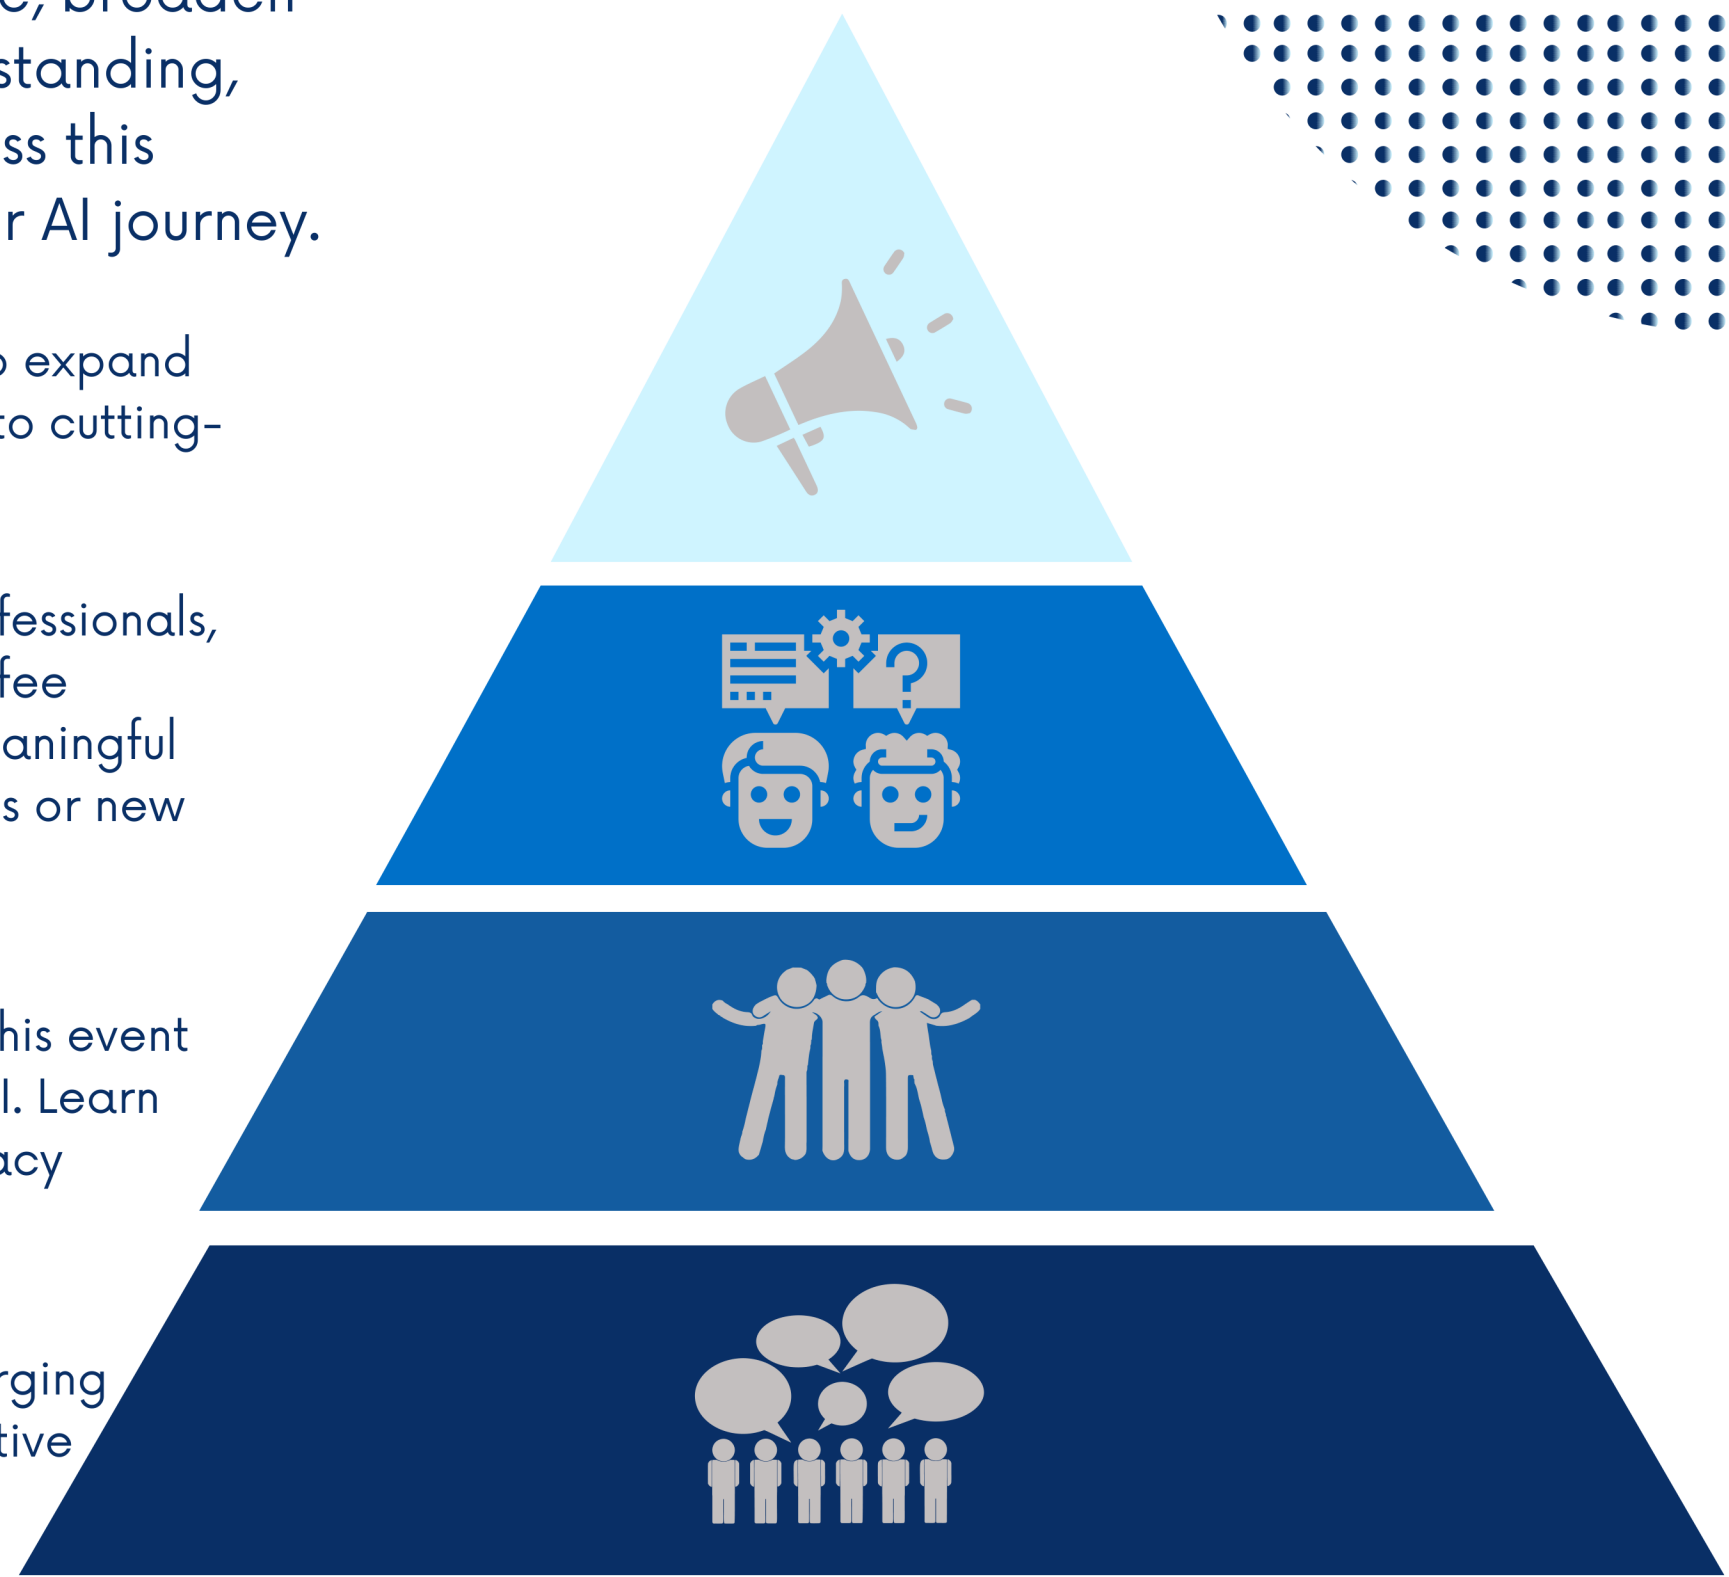

The AI Conference promises to enhance your expertise, broaden your professional network, deepen your ethical understanding, and prepare you for the exciting future of AI. Don't miss this opportunity to be part of an event that will shape your AI journey.

01 By participating in this event, you have the opportunity to expand your understanding of AI, from its foundational concepts to cutting-edge innovations.

02 Engage with a diverse group of attendees, including professionals, researchers, and thought leaders. Networking during coffee breaks, lunch, and closing sessions allows you to build meaningful connections, potentially leading to collaborative projects or new career opportunities in the AI field.

03 In an age where ethical considerations are paramount, this event provides a dedicated session on the ethical aspects of AI. Learn about responsible AI practices, bias mitigation, and privacy safeguards.

04 Explore the future of AI by diving into discussions on emerging trends and innovations. Gain a forward-looking perspective on how AI is poised to impact industries and society.

AGENDA

09:00 – 10:00 : Welcome Note – An Inviting Start to the Day

10:00 – 11:00 : Keynote Speech – The Evolution of AI A Comprehensive Journey Through Time

11:00 – 12:00 : Cyber Security in a Digital Era – Guardians of the Digital Realm

12:00 – 13:00 : Lunch Break

13:00 – 14:00 : Workshop – Prepare to Develop AI Solutions on Azure Hands-On AI Exploration

14:00 – 15:00 : Modern Tools and Enterprise Solutions – Showcasing the Pinnacle of Innovation

15:00 – 16:00 : Securing AI Services – The Safeguarding Imperative

16:00 – 17:00 : Closing Remarks and Future Directions – Summing Up a Day of Insights

TRAINER

Nedim Sadovic

Microsoft Certified trainer
Training Experience: 15 Years
Total IT Experience: 20 Years
80+ certifications

A seasoned Senior Systems Engineer with over two decades of experience in the IT field, specializing in Microsoft Cloud technologies, including Azure, M365, and Intune. Their expertise extends beyond the traditional IT realm, as they have mastered the integration of artificial intelligence (AI) into Microsoft technologies, optimizing systems for enhanced performance. Additionally, this trainer is a dynamic presenter who actively engages with audiences at both local and EU conferences, sharing valuable insights into AI applications. With a passion for AI-driven innovation in IT, they are poised to guide you through the exciting world of AI.

ABOUT US

OVERVIEW

Orbus is a dynamic and forward-thinking company that has been at the forefront of the training industry since its inception in 2010. Over the years, we have grown and evolved into a global leader in providing top-notch training solutions, with a strong focus on Information Technology (IT) and fostering innovation among our clients.

EXPERIENCE

- Training Delivered – 500 +
- Hours Trained – 15000 +
- Customers – 50 +
